As I am unable to make satisfactory arrangements for the care of my stock this winter. I have decided to sell the same at auction on

FRIDAY, OCTOBER 24 at 1:30 o'clock

The sale will be held at the Smith Stock Farm, about 3 miles from Barre City, as this location is more easily reached than my farm. Every animal will go to the highest bidder, even though they bring no more than grade prices. Recently tested for tuberculosis by a federal veterinarian and will be sold with a 60-day retest privilege if animals are kept in an accredited herd or in sanitary stables.

There are 14 mature cows, 7 head being under 5 years old; 3 yearling heifers, 1 bull calf sired by a 31-lb. son of King Segis Pontiac Alcartra; 1 7-months-old calf and 2 small calves Two animals are in advanced registry, one milking as a 3-year-old 681/2 lbs. per day and the other at 26 months milking 481/2 lbs., and making 20 and 13.57 lbs, butter, respectively, in seven days. Both these animals are due soon after the sale. A few extra heavy producers now fresh and milking from 40 to 60 lbs. per day; others to freshen soon. This herd has been gotten together with a great deal of care and expense, most of the cows having been chosen from large herds. Not a heifer that did not milk 40 fbs. or more at first calving. One 3-year-old is now milking about 45 lbs, per day.

Send for descriptive circular or catalog. Come to the sale. Will be pleased to show this stock previous to the sale, and we will be pleased to have interested parties see them milked.

You will find this a good, healthy lot cows, good size and the profitable 31 Franklin Street kind. Whether you want a family cow or to increase your herd, the better kind is the cheapest. Remember, it costs no more to keep a cow whose calf is worth \$100.00 or more than a scrub that gives half the milk and drops a calf worth \$5.00 or less.
